

Ms. A. 7. 7. 1

Robert G.

Aug-12 '72-

Cambridge 12 Augth 1872

Dear Brewster

Your estimate, enclosed
of the 7th received glad to hear from you & think
you were very good indeed. I have not been well
yet, cannot get out but have in hope of getting
a couple of weeks in October. Your note about
nearly does not see me & nothing will do it
excepting being to stop in my room for the first 3 or 4 days
in a hot room & take a little but he is so quiet
in his room as a rule & I have to go. I have
not been so well lately from the matter as
well as one being, and I think I am just at home
my ideas being perhaps on the 7th & in December
but I will keep. I have had powder and was
the pleasure with the result is so strong
as Curtis & Keenan to which I am of copies of
100 and I feel his much as if I had the same
time of it was 476 that number of dozen pressing paper
at 65 paces 4th & 8th shot. Curtis & Keenan

Some quantity of your paper published 4/16th of an in
with 159 words. I sent an order for a case of 25 lbs
but have been humbering some about getting it
of I do not receive in answer this week will continue
the same a quantity of some of you to get in a case
from England by the 20th of October

Boardman in means good, spot
in the story is better than the last one
a very much more work to win & over 70 words
the title is funny & since the lot was worth 10 words
which he was for him in a future of the world.
for the time more. I was glad to hear of any hope
in your improvement 10 lbs. by the way I found
with the day some 10 words back and was
now in a nation so hard for. (C. S. Hartman
on 14th St. Boston was the writer about
any her in a chapter. I wish to stay he.
was 100 words for her.

Robt James in kind regards
from Keppel, Mass.
John Abbott, Feb 11

Cambridge 23rd Aug /73.

Friend Brewster

Your very welcome letter of the 15th I received in due time. I was very sorry to hear you had been laid up & hope it is the last attack you will have for many a day. I have nothing of importance to write you from here were it not for the fact that this season in Cambridge we have had no shooting as yet. I was one 1/2 day up at Lincoln looking for cock in common fields, but without success. I only shot one in Concord from 7th to 16th & in an order starting one woodcock to one partridge around the whole day. I had Mr. Bennett's dog in June. If I had the dog I might have found some but I think I won't do it. I have not heard of any one making a bag this season except Mr. Boomer who he was out for 3 or 4 weeks since that he had the day's expenses of 30 my Brother's children were sick & he took them down to New Brunswick he remained there 2 days

last time he spent about 4 hours in the tree
last week shooting and got 10 or 12 dozen I don't
remember which. I would like to go down in
October but fear I will go with Rob to I am
building a house on Grubbs street for J. H.
Little hill in winter and I could get the
vehicle going to the main road for shooting
to the west of it I would go for a couple of weeks
but don't know about the birds some on the
west side I want to hear that your dog has been
killed but hope he has not returned any
longer than some of the other you can cure him
if in a few weeks, Rob's dog to him are looking
well & feeding well and I think they will give
very well of them as if there is any game
then Rob's I am sure, I would not be so out
at all now I hear of some things about the
game, I hope to hear from you soon
Rob's name in kind regards to you
Respectfully
Edw. Nesbitt

Nesbitt, John
Aug. 29, 1874

About him more than color he
woud favor to make a good dog.
with proper management & time
the bitch is equally as good but of more
of a nervous disposition like, phots,
and wishes to be shy, but very good
in her work, I am shown breeding them
to their kindred they dont take to it
very kindly but they woud be I get
none with them.

Rob joins in Hendersons
my respects to Barston
Yours truly &c -
John Nesbitt.

Aug 29-74

Friend Brewster.

Your very welcome letter
of the 15th is at hand glad to hear
from you & that you are enjoying good
health. Cambridge is quite unusual.
every one away from home that can get
except your humble self and he doubts
much if he gets a chance this autumn
See Under. to see a friend from
Old Eng^l left for him on the 22nd
I Thomas Adams & F Parker have
gone also, so it is safe to presume that
the chickens are getting keiledom bid.
by this time. Rob's goes east just week
on his vacation would like to go when
he returns but here he is estimating on
some work so if I am the piresjoll
compactor I woud keep her at home
but woud have a day when I take the
train on Babmout hills if it takes a leg.

Bussard has been very quiet with me
for the past two weeks - I don't expect
you say about Cook saying that you
found them scarce at Travin & Brookley
Brookley last season, he was blown out
himself with a Frumy & bagged 48
Cook in three days, his Frumy has shot
several of 100 this season. Mr. Boardman
writes me that he has shot sixty since
July 4th and only three of them this
seasons breed he wants me to go with
him to darkville snipe shooting he says
they are very plenty he reports Cook
saw this season in all his best grounds
I wish you were at home so that we might
plan some day of sending a delegate
to the sportsman convention at Niagara
to be held on the 9th of Sep^r see letter
in Sportsman of Aug 22nd I think all
sportsmen should lend a helping hand
in the cause, and I think we should
organize a local club in Camb -

for the preservation of game and enforce
the law regardless of Friends or foes
or the day is not far distant when a game
bird in this State will be a curiosity worth
seeing I have several parties a number
of times within a few weeks riding out
a setter or a pointer in the back of a
Buggy there is no cock to shoot to the
question is what are they after it is
very clear to me they are after Ruffed
Grouse & Quail of this kind there -
but enough of this for present -
Bobbie says he has three of Aug 4 of
them better which I destroyed the two
I kept are looking well the black & tan
to the other Bitch are coming on well
Adams admiring to the Parrot that he is
the handsomest one of the kind he ever
seen there has been upwards of 50 to
see him this summer to all admire him
he is the most desirable prop I ever bred
I cannot see any thing remarkable
